2022 COLO SUMMER SOCCER PLAYER REGISTRATION GUIDE

This 6-a-side summer season Colo Soccer is using dribl as an all-in-one platform for running this competition. Your team organiser needs to register your team and supply you with a team link code before you can register to play.

Once the team is nominated please use this link to register as a player (or parent/guardian of a player) <https://registration.dribl.com/signin/35>

You will need to **Sign Up** for a registration account (this is different to the dribl account you may already have from the winter season). Once it is created the details will remain for further registrations/seasons.

Create your account – start by entering your details and click “Create Account”.

After creating an account, you will be required to log into your registration dribl account – **Sign in**

Club Selection - Select **Colo Soccer Summer** and choose **Club Competitions**

Registration “Has the registrant registered via Dribl Registrations before? Choose **Yes** if you were a Player/Coach/Manager in the winter season in the Nepean Association or **No** to enter all details. You will need your FFA number and a photo during this process. You will then be asked if you are registering yourself, a minor or another person. Please choose the appropriate registrant and complete all information, including an emergency contact.

Select the player package that appears and use the team code that was given to you by the team organiser.

All fees for the season are charged up-front at the time of registration. For players that are playing in multiple teams you will need to use the discount voucher codes on your second or consecutive registrations to avoid paying the full amount each time. For 16-18 year old’s the voucher number is COL-9C7D-3836-C7ED and for adults 19+ the voucher code is COL-DCDF-2F77-5A0A. These codes will only be valid for multiple registrations after the initial registration and the registration will be rejected if only used on single registrations.

Registrations into multiple teams need to be done individually using the unique team link code for each team.

The draws will be available on dribl by the week the competition starts.
